

**Subpart E—Special Use Areas**

**§ 423.60 How special use areas are designated.**

(a) After making a determination under paragraph (b) of this section, an authorized official may:

(1) Establish special use areas within Reclamation facilities, lands, or waterbodies for application of reasonable schedules of visiting hours; public use limits; and other conditions, restrictions, allowances, or prohibitions on particular uses or activities that vary from the provisions of subpart C of this part 423, except § 423.28; and

(2) From time to time revise the boundaries of a previously designated special use area and revise or terminate previously imposed schedules of visiting hours; public use limits; and other conditions, restrictions, allowances, or prohibitions on a use or activity.

(b) Before taking action under paragraph (a) of this section, an authorized official must make a determination that action is necessary for:

(1) The protection of public health and safety;

(2) The protection and preservation of cultural and natural resources;

(3) The protection of environmental and scenic values, scientific research, the security of Reclamation facilities, the avoidance of conflict among visitor use activities; or

(4) Other reasons in the public interest.

(c) An authorized official establishing a special use area must document in writing the determination described in paragraph (b) of this section. Such documentation must occur before the action, except in emergencies or situations of immediate need as described in § 423.61(c), in which case the documentation is required within 30 days after the date of the action. Reclamation will make documents produced under this section available to the public upon request except where such disclosure could compromise national or facility security, or human safety.

[71 FR 19794, Apr. 17, 2006, as amended at 73 FR 54981, Sept. 24, 2008]

**§ 423.61 Notifying the public of special use areas.**

When establishing, revising, or terminating a special use area, Reclamation must notify the public as required by this section.

(a) *What notices must contain.* The notice must specify:

(1) The location of the special use area; and

(2) The public use limits, conditions, restrictions, allowances, or prohibitions on uses and activities that are to be applied to the area or that are to be revised or terminated.

(b) *How notice must be made.* Reclamation must notify the public at least 15 days before the action takes place by one or more of the following methods:

(1) Signs posted at conspicuous locations, such as normal points of entry and reasonable intervals along the boundary of the special use area;

(2) Maps available in the local Reclamation office and other places convenient to the public;

(3) Publication in a newspaper of general circulation in the affected area; or

(4) Other appropriate methods, such as the use of electronic media, brochures, and handouts.

(c) *When notice may be delayed.*

(1) Notice under this section may be delayed in an emergency or situation of immediate need where delaying designation, revision, or termination of a special use area would result in significant risk to:

(i) National security;

(ii) The safety or security of a Reclamation facility, Reclamation employees, or the public; or

(iii) The natural or cultural environment.

(2) If the exception in paragraph (c)(1) of this section applies, Reclamation must comply with paragraph (b) of this section within 30 days after the effective date of the designation.

(3) Failure to meet the notice deadlines in paragraphs (b) or (c)(2) of this section will not invalidate an action, so long as Reclamation meets the remaining notification requirements of this section.

(d) *When advance notice is not required.* Advance notice as described in
